UESPWiki - Your source for the senior scrolls since 1995, Skyrim: Places: The Talos Shrine in The Thalos Sanctuary in Markaret is a small shrine in Markaret dedicated to the worship of the god Talos. Inside the Talos Sanctuary is a small, one-room place that is usually empty. The statue of something you can give way to a deity is a well-lit central element of a gloomy interior. Directly in front of the statue is the sanctuary of Talos, activation gives you the blessing of Talos. From Skyrim Vicky's: English Edit Share Shorten Time Between Screams 20% Of Talos Shrines are shrines in Senior Scrolls V: Skyrim. Blessing Effects (edited source editing) The activation of the shrine gives the blessing of Talos for eight hours. Only one blessing (effect) can be active at the same time. Prayer in another shrine will eliminate this effect. Craft (edit source editing) This shrine can be created for estates as part of Hearthfire. It can be useful for a low-level character to look for these shrines, taking offerings for better armor and weapons or making some gold. The plethora of offerings at shrines outside the towns in Skyrim means that many people still worship Talos, but take precautions not to be caught by Talmore Justices. Random venues are next to several shrines. This can sometimes lead to Talmore justs attacking the Dragon for worshipping Talos. The large number of shrines may be associated with a ban on the worship of Talos, forcing his believers in secluded places. Errors (edit the source of editing) This section contains errors related to Shrine of Talos. Before adding an error to this list, consider this: Please restart the old save to confirm if an error is still occurring. If an error is still going on, please post an error report with the appropriate system template 360/XB1, PS3/PS4, PC/MAC, NX, depending on which platform (s) the bug was detected on. Be descriptive when listing errors and fixes, but avoid conversations in the description and/or using first-person anecdotes: such discussions belong on the appropriate forum board. PC 360 PS3 Description of Talos' blessing reads: Time between screams decreases by 0%. This is due to the game using a decimal form of 20%, which is 0.2. It's 0.2 rounds down in the description to 0, making it appear as if the blessing has no effect, even if it is properly assigned a bonus. There is no current fix for this and having this error once will ensure that it is for the duration of the game. PC 360 PS3 Bringing a follower during a Conspiracy Under Oath quest can forever make a follower stuck in the temple. If they are married to a follower, it may not be possible them from the temple. Even after the end of the next quest (No one escapes Cidhna Mine), the follower is still stuck. Also, waiting a whole month doesn't fix it and won't follower to go home. No fixes have been confirmed at this time, so it is not advisable to have a follower during this quest. PC 360 PS3 After completing the Conspiracy under oath and No one eludes Cidhna Mines Dragonborn can still face corrupt guards at the entrance to the Sanctuary of Talos, who will re-engage in dialogue to arrest them and take them to the Cidhna mine. There seems to be no way to fix it, and even after waiting days or weeks the guards will not leave the temple. PC 360 PS3 is not able to create a shrine even with a few amulets because it is a quest item. The new amulets collected after receiving Hearthfire are known to work. Something that doesn't make sense to me is that the worship of Talos is completely forbidden here, and some official in the hold even gave me a mission to investigate some guy who is suspected of talos-fan, and yet there is a full-scale Talos temple in a giant tower in the center of the city. WatPage 2 20 comments I'm trying to become Thane of Haafingar hold/ Loneliness. I cleared the Wolfskulla cave, Elisif asked me to take Her Husband to the Talos Shrine. It appears as a Misc Journal entry. Where is this shrine? I tried to take him to the sanctuary in Whiterun, where the priest was always screaming. No luck, no options to leave the horns there. I tried to follow this guide, I kept and kept looking. Nothing between the north of the ritual stone or east of Whiterun is reminiscent of what they're talking about. But it's a radiant quest, so I think the information can be dated. This guide is said to go to the appropriate shrine. Our own guide doesn't have that mention, which means it should be easy to make. I wandered in search of this shrine for almost 2 hours in real time. What temple of Talos do I need to throw off the horns? And more importantly, where is it/ How to find it?
